

# Home School Art Classes

Home School Students can now get first hand the art of creating their own pottery under the expert instruction of Sonia Neale, Instructor at the Art Center. Mrs. Neale has her BFA from Winthrop University and since 2000 has taught a number of ceramic and art classes throughout the community. We will provide a 1 or 2 hour session one day a week for 6 weeks to help provide the arts to your student. This experience will expose them to another side of the Arts which will add to their well rounded approach to life.

## Home School – Clay, Drawing, Painting and More ages 10 and up

Students will create and learn as they turn their drawings and paintings into clay works of art. Students will use mixed media such as crayon, pencil, paint and clay. We will discuss the Principles and Elements of Art such as color, shape, line and texture and how they apply to each lesson. Come to learn, get dirty and have fun.

Home School Pottery for Teens - ages 12 and up: This class is for those who have some experience with clay and are ready to further their talents. Sculpture and other advanced methods will be explored. Students will be exposed to elementary wheel techniques. \*\* The class is geared to meet the needs of the participants.

**\*\* Upon completion of this class students may elect to go to an advanced throwing class which is provided by the Art Center.**

Home School Art ages 5-9 - Students will develop new skills and coordination through a variety of processes to produce wonderful pieces of art. We will focus on clay as well as many different materials such as crayons, etc. Students will learn about the Principles and Elements of Art in texture, pattern and repetition as they discover their creativity.

**Pre-registration will begin August 1, 2011.**

**Please review details below and sign up early.**

**Class space is limited to 10 students per class.**
